Seeks Overthrow of Present Ministry in Japan.

ANOTHER OF ITS OBJECTS

The Annulment of the Clause in the Immigration Bill Excluding Japanese Coolie Labor From Continental United States.

Washington, June 10.-That the apanese of the Pacific coast and the Progressives, a political party of Japan, have entéred into an alliance hat has the ear-marks of an internaional conspiracy with the overthrow f the present ministry in Japan and he annulment of the clause in the imnigration bill excluding Japanese coolie labor from continental United State as the ultimate objects, has een learned authoritatively here.

The preliminary steps in this scheme, it is said, will be to induce he Tokio government to recall Visount Aoki, the Japanese ambassador the United States, and to demand n apology and perhaps an fademnity rom this government for the alleged cts of violence against Japanese subects residing in San Francisco.

With this end in view, representaives of the faction hostile to the Saonji ministry have been in Washington to consult with the Japanese mbassador and the state department fficials regarding the objectionable lause in the immigration bill, the alifornia school question and the reent riots in San Francisco. The reorts that they have sent to Tokio, it is alleged, will form the basis of a systematic campaign to bring about anti-American demonstrations in Jaean and to force Foreign Minister Hayashi, if possible, to demand indemnity and an apology on account of he Japanese disturbances in San Francisco.

Delegation Visited Washington.

These facts became known for the rst time when it was learned that T. Takahashi, representative of the Seatle Japanese society; O. Noda, representative of the San Francisco Japanese society, and K. Kawakami, staff representative of the Yorozu (daily newspaper) of Tokio, came to Washington on April 21 and remained until May 12. During this time they were egotiating with the Japanese ambasador for the annulment of the Japanese immigration limitation law.

This delegation failed in its purpose, and, it is stated, after charging Ambassador Aoki with treachery to the Japanese of the Pacific coast and with misrepresenting conditions to his ome government, they telegraphed Ototaka Yamaoka, the personal repesentative of Count Okuma, who was awaiting their report in Seattle, with he request that he communicate with he anti-administration leaders in To-

Messrs, Takahashi, Noda and Kawa ami had an interview with Assistant Secretary of State Bacon on May 8 They then telegraphed Yamaoka that they were dissatisfied with the attitude of the state department and the Japanese embassy and urged the ne ssity of carrying the fight to Japan. Acting upon this suggestion, Yamaoka sailed for Japan on May 14 on the steamship Aki, and it is pointed out, the renewal of the anti-American agitation in the Japanese press has begun since his arrival in Tokio on May 28. It is also believed here that he prompted the deputation of Progressives to call on Foreign Minister Hayashi for an explanation of the government's "apparent inaction and want of efficiency in the presence of the grave diplomatic question with the United States."

## A MOST WICKED ACT.

Viscount Tani's Opinion of Alleged Persecution of Japs.

Tokio, June 10.-Viscount Tani, leader of the opposition in the house of peers and head of the defense of Kumamoto in the Satsuma rebellion, s reported to have said anent the American question:

"The persecution of the Japanese in San Francisco is a most wicked act. Should diplomacy fail to bring about in Strength pen to us is an appeal to arms. Our mind is firmly made up. It is certain a satisfactory solution the only way that America will yield, for its people

> How much Viscount Tani represents public sentiment it is difficult to estimate at the present time.

## DISCUSS THE SITUATION.

Japanese Newspapers Express Their Opinions.

Tokio, June 10.-In regard to the recent attack on a Japanese bathhouse and a restaurant in San Francisco, the Jiji advises its readers not to believe that the unfriendly sentiments of San Francisco people are shared by the whole American nation. The paper

oints out the danger to friendly relaons between Japan and the United States that might result from such misapprehension. It also expresses full confidence that the Washington government will be able to settle the

The Hochi suggests that the traditional friendship and the outrages suffered by Japanese in America are two things that must be kept distinctly genarate in solving the question of assault on Japanese in San Francisco, which is now at issue. The Hochi says the outrage should be considered rrespective of the locality of the occurrence. Continuing, it says:

"Should similar discrimination and persecution be practiced against citizens of a European power, there would certainly have been the strongest outbursts of indignation on the part of the whole nation that suffered by

"The San Francisco incident concerns not only the rights of the Japatese there, but the honor of Japan. The future relations between Japan and the United States are involved in this question. Our demand must be firmly insisted upon and sentimental considerations set aside. Thus will the friendship of both nations be placed on a firm footing."

### GOES TO THE EXPOSITION

President Roosevelt Leaves Washington for Jamestown.

Washington, June 10,-President Roosevelt and party left the Washington navyyard aboard the converted yacht Mayflower for the Jamestown exposition, where the president will deliver an address at the dedication of the Georgia state building and before the National Editorial association.

In addition to the president and Mrs. Roosevelt those in the official party were Admiral and Mrs. Cowles, Mr. and Mrs. Douglas Robinson, Mr. and Mrs. La Farge of New York city, Miss Hagner, Mrs. Roosevelt's secretary, and Assistant Secretary Latta.

A large crowd assembled at the navyyard to see the president depart. The arrival of the party at the navyyard was announced by a bugle call and a detachment of marines was drawn up on the wharf. As the president ascended the gang plank, the band aboard the vessel played "The Star Spangled Banner" and the president's flag was unfurled at the mast-

Steve Adams to Testify Against William D. Haywood.

ORCHARD'S STORY OF CRIME

Said to Be Surpassed by the Confession Adams Made and Later Repudiated-New Light Thrown on Murder of Lyte Gregory.

Boise, Ida., June 10.-Steve Adams, another prisoner witness for the state in the case against W. D. Haywood, s now on his way to Boise, coming from the jail at Wallace, where he is held pending a trial on the charge of murder. Adams, according to Harry Orchard, was the partner of the assassin in many of the "bumping expeditions" successful and unsuccessful, to which Orchard has made con-

Adams so confessed last year, but, unlike Orchard, he repudiated the document when he faced the gallows. The confession is, however, sworn and in writing. It shows careful correction and interlienation in Adams' own handwriting. Astounding though it may seem, those who have seen Adams' confession say it surpasses Orchard's story of coldblooded murder. Adams' alleged list of victims is not as long as that with which Orchard credits himself, but this is said to be because Steve still-hunted a single quarry, while Harry Orchard, to use his words, "did not care whether he killed one man or fifty," as he "felt at that time.'

Another interesting witness who has arrived in Boise is Mrs. Ida Toney Orchard, the widow with three children whom Orchard took to be his wife, although he had another wife in Canada. Mrs. Ida Toney Orchard will be a witness for the defense. It is understood that she will testify that Orchard while he lived at Cripple Creek was in the employ of the mine owners. It is expected by the defense that she will be able to throw light upon the motives of Orchard and will be relied on to strengthen the claim of the defense that the mine owners and not the schedule time before the vessel was Western Federation of Miners were the conspirators who employed Orchard to murder.

> Orchard married the second time at Cripple Creek when he was at work as a miner. At that time he was a dress the students of several Western member of the miners' union. They were married shortly before the great strike of 1904. The woman was keeping a miners' boardinghouse.

New light has been thrown on the murder of Lyte Gregory in Denver, Ac cording to statements made by the police in Denver, Orchard and Simpkins or whoever his accomplice was, were suspected at the time of the murder Bloodhounds tracked them to the yard behind Pettibone's store, where Orchard says he hid his guns and other evidence was destroyed.

## Ordered Not to Molest Orchard.

The police were about to arrest the two men when orders came from some mysterious source that they were not to be molested and Orchard was al lowed to get out of town. This state ment is said to have been made by Chief of Detectives Loomis of Denver Paul Gregory, a brother of the mur dered man, has made a similar state ment. It is likely that both will be called as witnesses and the mysterious order allowing Orchard to get away will be investigated.

The arrival of witnesses is an inter esting feature of the case. Men whose names have been connected with the history of the mining trouble in Idahe and Colorado are continually on the streets, in the courtroom or hotel lob bies. Angus Sutherland, the little Scotchman who was sheriff of Sho shone county in the Coeur d'Alenes himself a famous gunfighter; the marshal of Victor, Colo., who went through the stirring times of trouble there in 1903 and 1904; Bulkely Wells. the former adjutant general of Colorado, who dug up the bomb planted to kill Governor Peabody and who was in charge of the special train that ran from Denver to Boise with Haywood, Moyer and Pettibone on board which s generally called the kidnapping train, and a dozen other men of that ilk are here and will participate in the trial as witnesses. One of these, a Pinkerton detective, will testify that he has been a member of the Western Federation of Miners for some years and during that time he was president of a lodge. While not a member of the executive board he was in their confidence up to a certain point and at the same time was making regular reports to the detective agency

This man will be a favorable witness for the state. His employment to join the Western Federation and earn their secrets is in line with the detection of the Molly McGuires in Pennsylvania, which led to the conviction of the men accused. Captain James McPartland, who has had charge of the present case since the arrest of Orchard and who is now the superintendent of the Pinkerton agency with headquarters at Denver.

## TORNADO IN IOWA.

Damages Property and Renders a Dozen Families Homeless.

Des Moines, Ia., June 10.-A dozen families are homeless and property is damaged to the extent of \$25,000 as a result of a tornado that passed through Pleasant Valley.

No loss of life is reported. The storm took its way toward the east wiping out everything in its path. The first house of any size to be destroyed was that belonging to Elmer Baker. The structure was completely demolished as well as the furniture. The family was away at the time.

The house of William Harvey was destroyed. His barn was also wrecked. The family went into the storm cellar and escaped with their lives and without injury

The new home of Marion Howsar, as well as that of his brother Ira, was torn and twisted from its foundations. Throughout Marion county the damage to growing crops was large. The rural telephone lines are down.

### INDICTED FOR MURDER.

Two Minnesota Men Are Accused of Crime.

Grand Rapids, Minn., June 10.-With two diametrically opposite stories for the grand jurors to choose from, a true bill has been returned against David Cochrane for the death of Allen Whitt near Wirt postoffice. The principal witness for the state, and the only eye witness to the death of Whitt, is the woman who claims to be his widow and her testimony is a flat contradiction of the story told by the defendant and by Fred Anderson, indicted with him on the same charge of murder in the first degree.

Both men were arraigned and pleaded not guilty.

## BOY BUILDS AIRSHIP.

Ohio Youth Makes a Successful Flight With It.

Dickson, fifteen years old, made a successful flight with an airship of his Driving park. The airship, which is about thirty feet long, follows the model of the modern dirigible balloon. Instead of a motor, a footpower mechanism is used to drive the propeller, the boy operating it after the Dickson remained in the air an hour and apparently had perfect control of the airship, which he directed at will.

BEG AS AUTOMOBILE WAITS.

Garden City, N. Y., Lavishes Cold Victuals on Them-Tramp Who Got Big Lemon Won Bet-Then Auto Party Dines at Loser's Expense.

Chadwick E. Sawyer is twenty-one rears old, lives in Garden City, N. Y., and doesn't have to work. Patrick A. Fogarty is twenty-two years old and lives in New York. He feels that he loes a hard day's work when he winds up his automobile and runs out to see Sawyer, says the New York World.

In the refreshment room of the Garden City hotel the pair are considered men of promise. They were in there the other afternoon after a day of arluous golf when Fogarty pushed the button and remarked amiably to Sawyer that he looked like a tramp.

Fogarty sprang up and-looked in the glass. Then he came back and said to Sawyer:

"You say I look like a tramp. I know you look like one. Now, let us get into tramp clothes and go out on the Jericho turnpike. You take one side of the pike and I take the other side, and we'll call at the back doors left this city for their home. They doors of the worthy poor, and the man were in a carriage. After proceeding that gets the biggest handout is stuck for dinners for everybody in this room. man Adrian, of being too familiar with It's a sure thing that the bigger the handout a man gets the more that man

Sawyer pushed the button again in his inimitable way and replied that he and hid, Adrian firing another shot at was "on." Everybody in the room

A couple of dishwashers supplied the proper raiment. Fogarty and Sawyer shot her in the stomach. The wound got themselves into these clothes, rubbed enough of Mother Earth into their faces and hands to complete the makeup and said they were ready. A few more pushes of the magic button and a select party drove away from the rear of the hotel in Fogarty's tour-

Arrived at the Jericho turnpike, the two adventurers alighted. The rest of the party cruised up and down in the automobile. Sawyer, looking truly footsore and weary, with a note of heart rending appeal in his voice, begged his bread from door to door. At the farmhouse of Thomas Wicks he got four biscuits. Mrs. Orin Pearsall gave him a ham bone, and a German family at his third stop gave him two slices of rye bread and butter.

At his fourth, fifth, sixth and seventh stops he received so much more that he was compelled to stop the auto and ask his friends to take care of it.

How about Fogarty? Well, he got

plenty of cold pancakes, prune pie canned corned beef and left over tapioca pudding, but it was at the farmhouse of Orlando Titus, near West-Columbus, O., June 10.-Cromwell bury, that his "handout" won the bet. Titus has a daughter that everybody in the party agreed ought to be hangown construction at the Columbus ing out in the orchard, "sne is such a peach." Instead she was hanging out clothes when Fogarty came slouching into the yard. For full five minutes she listened to his Arabian tale of the widowed mother and the seven little children in the Bronx who would fashion of riding a bicycle. So Miss Titus went into the house and returned with a plate covered with

a snowy napkin. "Put your hand under the napkin," she commanded. "It won't bite you. It isn't dog."

Fogarty complied and drew out-a nice, smooth, round lemon. When he got out on the road he

proved by it that Sawyer was more of a tramp than he. So Sawyer climbed aboard, and they all drove back to Garden City and dined on Sawyer.

### To Russia For a Parasite. Dr. L. O. Howard chief of the bureau of entomology, department of ag-

riculture, has gone to the Crimea to visit the eminent Russian entomologist M. Mokhrshelsky and confer with him about a parasite that preys upon the silkworm, the Russian having recently discovered what he claims to be the natural enemy of the destructive silkworm parasite, says the Washington Herald. Dr. Howard is convinced that if the Russian's discovery is genuine the way will soon be opened for a thriving silk industry in the United States. He left Washington armed with the necessary authorization to apply to the American embassy at St. Petersburg for assistance in procuring the privilege to export various breeds of parasites from Russia, from which he is hopeful of obtaining one variety that will check the ravages of the silkworm's foe in this country. Experts declare that as soon as an effective method for the preservation of the silkworm's life is discovered silk manucar, striking two girls, and came near | facturing in the United States will become an important industry.

### JERSEY FOR SMALL BOY.

How to Knit One Such as Little Crown Prince Olaf Wears.

The jersey as a garb for the small boy has found great favor with mothers in England since the visit of little Prince Olaf of Norway last year, as the bonny, smiling, wee crown prince was nearly always attired in a simple white knitted bersey. It is also becoming popular in America. The garment has much to commend

it for small boys' wear, as it is warm. comfortable and allows of perfect free dom of movement, while last, but not least, in its list of qualifications it is one of the easiest possible things to wash and so keep the small man tidy. for whether the son of a prince or peasant he has a happy knack and love of getting grubby.

The jersey in the sketch is the same as that worn by the small crown prince of Norway and is a perfectly simple

The materials required are ten ounces of four ply fingering wool and four long steel knitting needles, medium size.

Use double wool to cast 168 stitches on 3 needles, 56 on each. With single wool work 24 rounds in a rib of knit 2, purl 1; then knit 86 plain rounds.

When working the first plain round decrease 10 stitches by taking 2 together 10 times at equal distances

For the Armholes. - Divide the stitches equally.

For the Back.-First row, slip 1, knit 78; second row, slip 1, knit 1, purl 75, knit 2. Repeat these 2 rows 27 times. Cast off 23 stitches for shoulder, knit 33, cast off 23 stitches for second shoulder. The front must be worked in the same way.

The neck is knitted in rounds on 4 needles. When arranging the stitches

Made Over by Cleaning. A last year's taffeta suit was most successfully cleansed by a clever woman. It appeared to be a perfect mass of little fine wrinkles, was absolutely unworn, but had lost every bit of its crispness. She laid it over an froning board and with a soft brush went over every bit of it with alcohol and water. It was quite damp with alcohol, and she hung it out of doors to evaporate and when it was brought in it was as crisp as new and as unwrinkled as the day it came home from the dressmak er. A silk petticoat, by the way, can be nicely cleansed by scrubbing it with a large piece of old velvet, after first brushing it very thoroughly with a stiff brush to get off any dirt. The nap of the velvet has a peculiar virtue in removing the dust that collects in the convulutions of the ruffles and plait-
